ASRA PERVEZ

I'm Asra, a junior full-stack web developer currently enrolled in a web development coding Boot camp with the University of Toronto. My QA/QC background allows me to design, create and enhance the ways brands and users interact. Eager to be part of a team that values creativity, growth, forethought, and a vision for making the world a little better.

80%

Express, Node.js
88%

WEB PROJECTS

October 2022
Auto_Auto-Cars-Dealership

- It is a website that allows our users to buy their dream cars over the internet with a secure login process. Users can log in and view a variety of cars with their descriptions and set up meeting schedule.

August 2022
Ultimate Movies

- My goal is to bring fast, reliable, and trouble-free open-source movies application. it's a simple movie application that allows the user to select and save movies by rating.
